- SAP S/4HANA; Excel; Google Sheets
- Power BI; Google Looker Studio
- Python; Pandas; OpenPyXL; SQL / SQLite
- Google Colab; VS Code; Git / GitHub; GitHub Actions; Google Apps Script

PROFESSIONAL EXPERIENCE

PT Wijaya Karya Bangunan Gedung Tbk

Mar 2023 - Dec 2025

Jakarta, Indonesia

Staff of Finance, Collecting & Accounting

- Posted and verified Accounts Receivable journals in SAP S/4HANA and maintained AR data accuracy through routine reconciliation with the general ledger.
- Managed the end-to-end AR cycle, including invoicing, billing tracking, aging analysis, and collection follow-up with project teams.
- Prepared annual planning and budgeting consolidation, including RKAP 2026 support, and monitored monthly budget utilization.
- Prepared monthly cash flow consolidation reports and highlighted key movements for management review.
- Built AR dashboards using Google Looker Studio and Power BI to improve visibility of receivables, billing status, retention, and collection priorities.

PT Wijaya Karya Bangunan Gedung Tbk - Project Assignments

Dec 2019 - Mar 2023

Accounting & Finance Staff | Mardika Market, Mandiri Bank Tower, Makassar Airport

Terminal

- Prepared journal entries, trial balances, monthly financial statements, and daily cash reconciliations for construction projects.
- Managed vendor invoices, payment documentation, petty cash, and project financial administration.
- Coordinated with project owners and internal teams to accelerate receivable collection and maintain complete supporting documentation.

PROFESSIONAL EXPERIENCE - CONTINUED

PT Wijaya Karya (Persero) Tbk Accounting & Finance Staff IPAL Suwung Project, Bali • Prepared monthly financial reports, project accounting entries, vendor documentation, invoicing, payments, and cash reconciliations. • Supported project administration and coordination with external partners.	Sep 2018 - Sep 2019
PT Wijaya Karya (Persero) Tbk Finance Staff 2,250-Unit Housing Development Project, Ain Defla, Algeria • Recorded project expenses, prepared accounting journals and monthly project budgets, processed tax payments, and supported financial reporting and operational logistics.	Feb 2017 - Mar 2018

Oct 2013 - Sep 2016

SELECTED DATA & AUTOMATION PROJECTS

1.4M-Row Data Processing Pipeline <i>Python, Pandas, Google Colab, VS Code</i> • Built a reusable workflow to clean, consolidate, and process approximately 1.4 million records, reducing repetitive manual preparation and producing structured outputs for downstream analysis.
Automated Budget & Document Validation <i>Python, OpenPyXL, Google Colab</i> • Developed automated validation checks to compare budget data with supporting documents and flag completeness or consistency issues across large document sets.
GitHub Actions - Scheduled Workflow Automation <i>GitHub, GitHub Actions, Google Sheets API</i> • Implemented scheduled processing and validation workflows and added retry handling for transient Google Sheets API errors to improve reliability of recurring runs.
AR & Management Dashboards <i>Power BI, Google Looker Studio, Google Sheets</i> • Designed dashboards for receivables, billing, retention, aging, budget utilization, and cash flow, with management views to support review and collection prioritization.
Automated Data Consolidation with Google Sheets <i>Google Sheets, IMPORTRANGE, QUERY, ARRAYFORMULA, Pivot Tables</i> • Built master sheets that consolidate multiple project files automatically, standardizing formats and reducing manual copy-paste work for recurring reporting.
Finance Division Collaboration Website <i>Internal Website Platform, Google Workspace</i> • Designed a central hub for finance SOPs, job descriptions, dashboards, and document links to improve access to procedures and cross-functional collaboration.
